

Adjectives

Adjectives are words used to add description to nouns. By using two adjectives followed by a noun, we can write an expanded noun phrase. For example: the dark, mysterious water.

Choose one of the images below and create a word bank of adjectives to describe it (minimum of 6 adjectives).

Think about what different things you can see in the image to describe. Can you think of any expanded noun phrases to describe your chosen image?

Rewrite and improve these sentences by adding a powerful adjective. You can use ones from your word bank to help you.

- 1) The sun shone on the mushroom.
- 2) The door opened.
- 3) The girl approached the building.
- 4) The earthquake shook the ground.
- 5) Thousands of miles away, there is a land.
- 6) Our neighbours recently moved in next door.

Imagine you woke up in one of these worlds. Write a passage describing it using powerful adjectives.

- Remember which senses you can write about – what can you hear, see, touch, smell?

- Use your word bank of adjectives to help you!
