

## Identifying Angles

### Key

Acute

Obtuse

Right angle

A Right angle is  $90^\circ$  (look for the L shape)

Acute angles are less than  $90^\circ$ .

Obtuse angles are more than  $90^\circ$ , but less than  $180^\circ$  (a straight line).

Choose 3 colours, fill in the key, then colour the angles as appropriate.

Challenge: Can you find any of these angles around your home?
