

## Reading Graphs Answers

- 1) 8
- 2) 10
- 3) No because the graph only tells us how many were born in summer. There are several months in summer and we don't know how many were born in each month.
- 4) 7
- 5) 15
- 6) 4 (*difference between requires children to subtract one from the other:  $7-3=4$* )
- 7) 14
- 8) 14 ( $24-10=14$ )
- 9) 80 ( $12+24+14+20+10=80$ )
