

Choose **one** of the challenges to complete below:

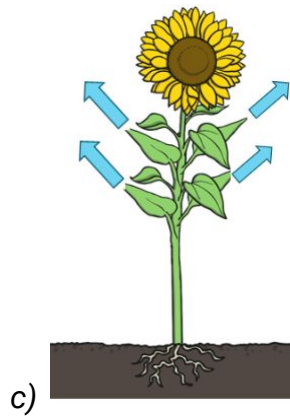

**Red Challenge**

**Can I explain how water is transported in plants?**

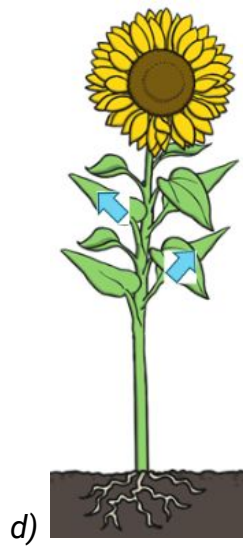

- 1) Match the stage of water transportation to the pictures below.
- 2) Once you have done this, put the stages into the correct order.

Stage of water transportation	Diagram
1. Water evaporates from the leaves	 <p>a)</p>
2. Stem transports the water to the leaves and flower	 <p>b)</p>

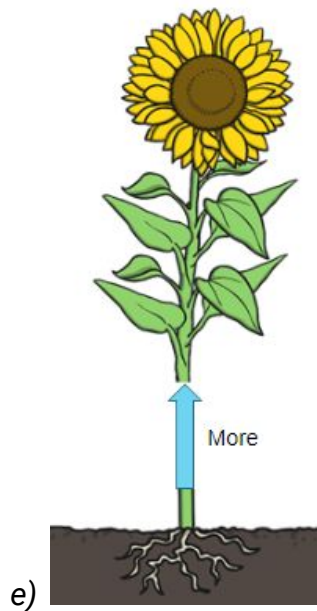

3. Roots absorb the water from the soil

4. Water travels up the stem

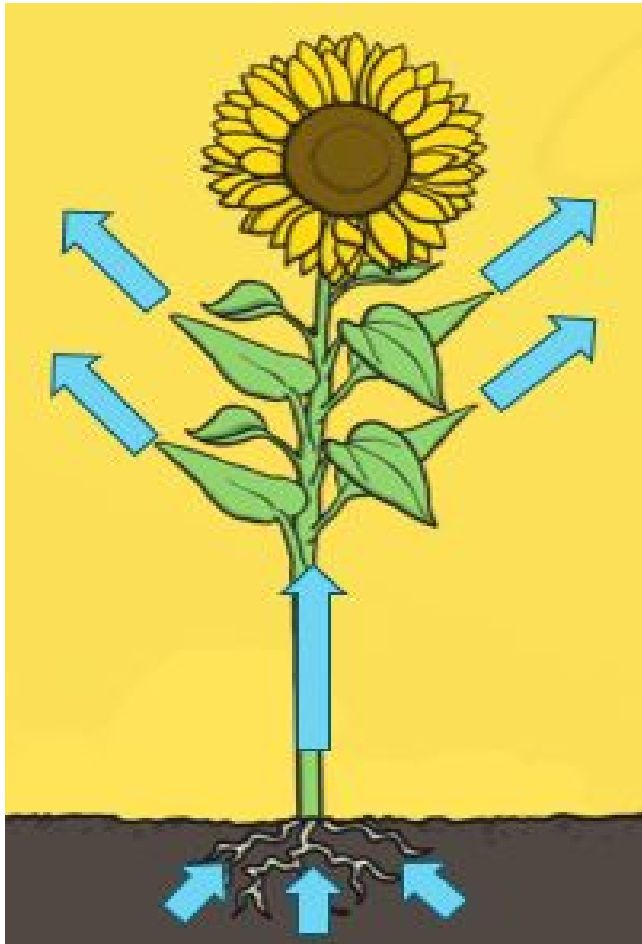

5. Evaporation causes more water to be sucked up the stem

### Yellow Challenge

Can I explain how water is transported in plants?

*Label the plant with the water transportation stages in your own words. Include numbers to show the order of the stages.*

## **Green Challenge**

**Can I explain how water is transported in plants?**

*Draw your own diagram of a plant including:*

- 1) *Roots*
- 2) *Stem*
- 3) *Leaves*
- 4) *Flower*
- 5) *Labels of each of the water transportation stages*
- 6) *Numbers to show the order of water transportation*
- 7) *Arrows to show the direction of the water flow*
