

Fast Five:

1) Label the four compass orientations:

2) What are these types of maps called?

Answers on next slide

Fast Five:

1) Label the four compass orientations:

North

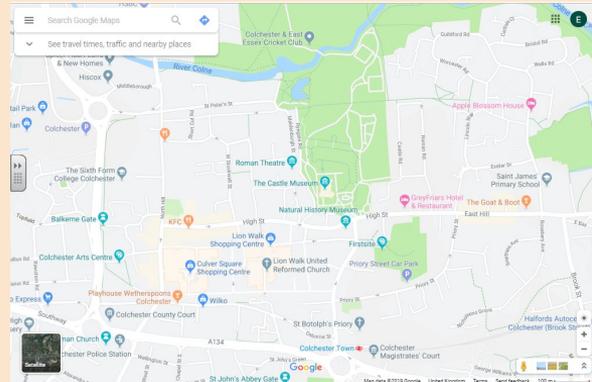

South

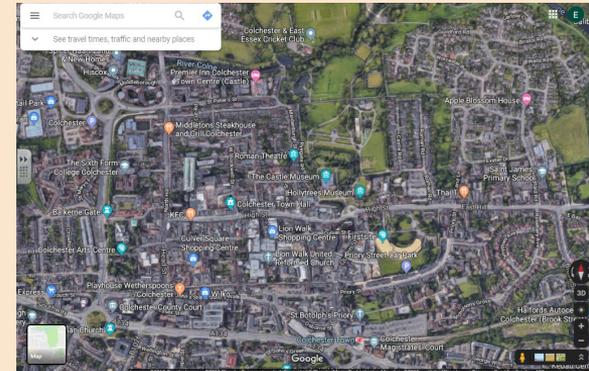

West

East

2) What are these types of maps called?

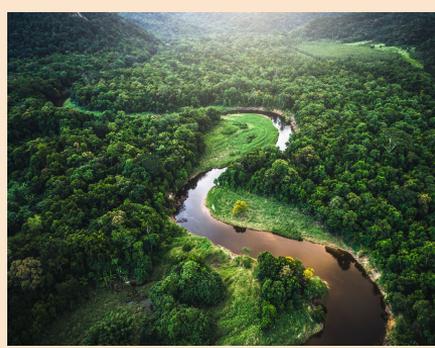

Street map

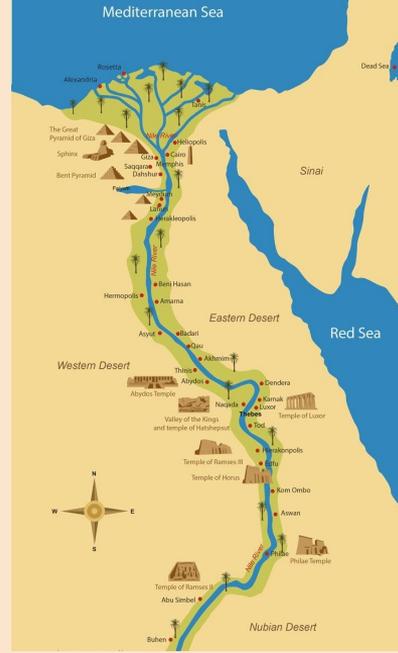

Satellite map

Answers on next slide

Brazil

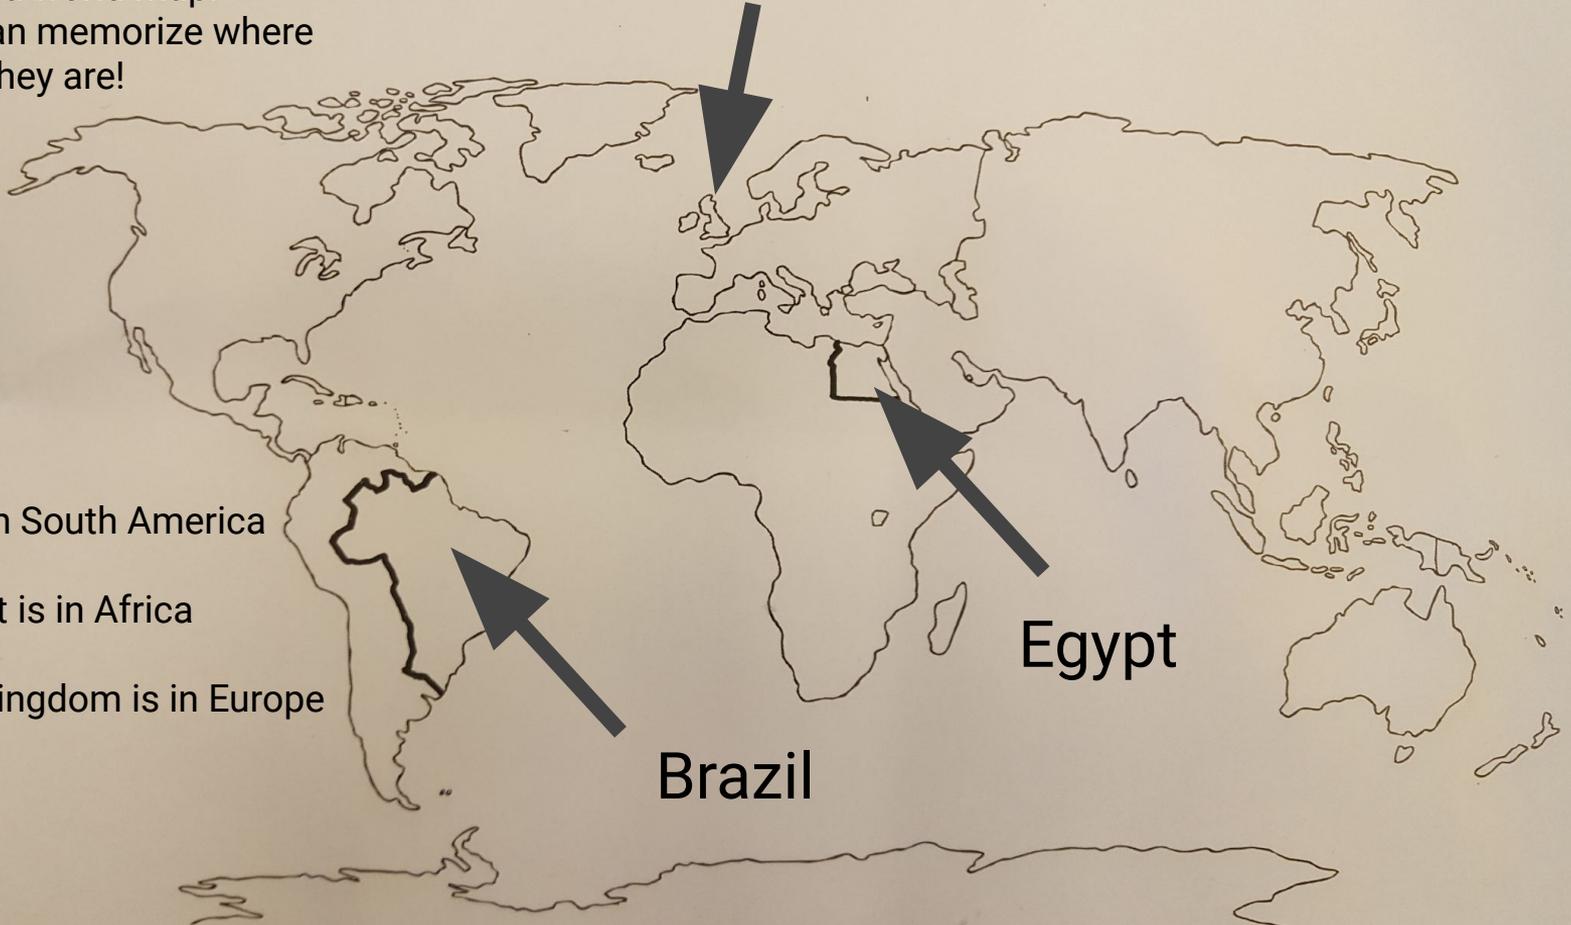

Egypt

This term we are studying Brazil and Egypt, focusing on two of their rivers: the Amazon and the Nile. We'll also be learning more about the people and animals who live in these countries.

This is where Brazil, Egypt and the United Kingdom (where we live) are on a world map. See if you can memorize where they are!

United Kingdom

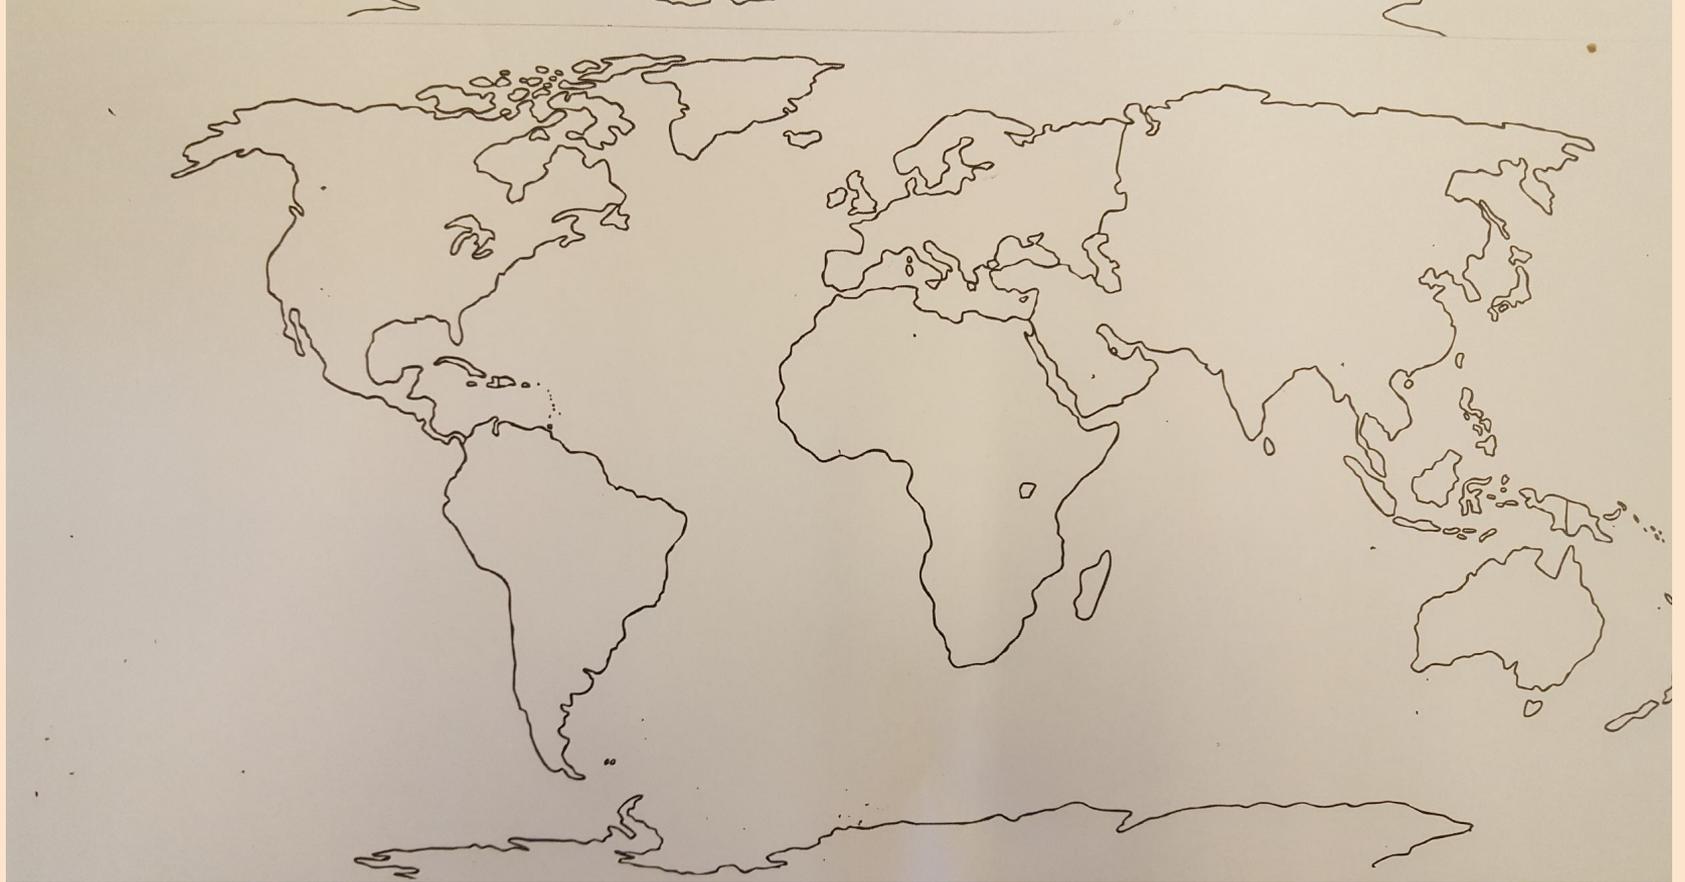

Brazil is in South America

Egypt is in Africa

The United Kingdom is in Europe

Egypt

Brazil

Can you point to Brazil, Egypt and the United Kingdom on this map?
Go back to the last slide to check if you were right. Keep practising if you need to!

Can you spot the United Kingdom and Egypt on this satellite map?

What do you think these grey shapes might be?

Can you go on to google earth and find Brazil?

<https://earth.google.com/web/>

Can you find the school and your house?

Can you find the school and your house?

The Amazon

The Amazon River runs across the North of Brazil from West to East.

This green area represents the Amazon Rainforest.

As well as Brazil, the Amazon River also runs through part of Peru which is another country in South America.

The Nile

The Nile runs through Egypt from South to North.

It is mainly surrounded by desert.
