Try saying and recognizing the colours a few more times. Once you're confident, here are a few things you could do to improve:

- Draw and colour in a picture (your outfit today, a meal you like, your house). Label all of the different colours in french.
- Go on a hunt around your house for an object of all of these colours. Practise saying the colour in French when you find one.
- Make yourself flashcards with the colours so you can keep practising.
